

**THE COURSE IS THE RESULT OF 20 YEARS OF EXPERIENCE,  
COURSES IN THE LABS OF  
MILAN, BONN, LUCERNE, PARIS, LYON AND SIDNEY**

## DeskGlueTech Training Course: Certification

Base Training for the first certification together with the purchase of every UV system  
Available in Italian / English / German\* / French\* / Portuguese\*  
\*with the help of a professional translator

- Introduction to Permanent Glues ©DGT, (with and without UV): faster perfect gluing, "without bubbles", at high mechanical resistance.
- The basis of an efficient and resistant gluing through glues ©DGT SolventGlue (without UV), ©DGT PowerGlue (Polimering UV), ©DGT FastGlue (adhesive UV)
- New generation capillary gluing with new molecules for ©SolventGlue EC : glues without UV, drying in 5 seconds for maximum competitiveness;
- 45° Box Production; Recent techniques and new fast standard
- 90° Box Production; folded and highly resistant
- Difficult gluing: the shelf and invisible gluing
- Working pieces, shining, fast cuts 45°, high speed cutter; with Multi-function Machines ©DGT TMT and ©DGT TST
- Invisible lamination
- GlitterGlue : new frontiers of glue for Design and Visual solutions.
- Finally films can be rounded and removed easily
- International recognition, safety certifications IMO/ADR/IATA and MSDS

## Up-Date Training Course

Training Course of update on gluing techniques DGT. Exclusively for experienced DGT operators, already certified or for new operators hired by already certified company.

- Update and review of performance Glue DGT, (with and without UV): faster gluing, perfect and "without bubbles" , high mechanical resistance.
- Basis of an efficient and resistant gluing through glues ©DGT SolventGlue (without UV), ©DGT PowerGlue (Polimering UV), ©DGT FastGlue (adhesive UV)
- New generation capillary gluing with new molecules for ©SolventGlue EC: glues without UV, drying in 5 seconds for maximum competitiveness.
- 45° Box Production; Recent techniques and new fast standard
- 90° Box Production; folded and highly resistant
- Difficult gluing: the shelf and invisible gluing
- Working pieces, shining, fast cuts 45°, high speed cutter; with Multi-function Machines ©DGT TMT and ©DGT TST
- Invisible lamination
- GlitterGlue : new frontiers of glue for Design and Visual solutions.
- Finally films can be rounded and removed easily
- International recognition, safety certifications IMO/ADR/IATA and MSDS

## SolventGlue Training Course

Course dedicated to operators who don't use the UV system to glue.  
Only Monocomponent glues based on Solvent.

- Knowledge of all solvent glues ©DGT
- ©DGT SolventGlue EC 00 practical use
- ©DGT SolventGlue EC 0 practical use
- ©DGT SolventGlue EC 5 practical use
- ©DGT SolventGlue EC 7 practical use
- ©DGT SolventGlue PC 0 practical use
- ©DGT SolventGlue Laser 1 practical use
- ©DGT SolventGlue Laser 3 practical use
- Capillary technique
- Structural gluing
- the watertight tube
- Avoid cracking
- Gluing PETG
- Finally films can be rounded and removed easily
- International recognition, safety certifications IMO/ADR/IATA and MSDS

## UV Print Gluing and Adhesive glues

Course dedicated to operators who need to glue delicate areas as UV prints o mirrors.  
Only in Bonn (Germany)

- Knowledge of all glues ©DGT FastGlue
- ©DGT FastGlue 09 practical use
- ©DGT FastGlue 10 practical use
- Mixtures
- Print UV machines UV
- Printing Parameters
- UV colors
- Practical examples and International recognition, safety certifications IMO/ADR/IATA and MSDS
